

# Runs Longer | Reduces Theft | Saves Money

The AlphaGen™ ACX2000i does all that... and MORE.

Designed specifically to **enhance reliability** in networks where integrated generators are not a primary power component, the AlphaGen ACX2000i provides **unmatched value** through a focus on three key areas.

## THEFT REDUCTION

- ACX2000i can be deployed in Alpha pole-mount enclosures, **enhancing security** and allowing for **unattended operation**

## DEPLOYMENT FLEXIBILITY

- ACX2000i **operates with or without power supply batteries**
- Supports **fully loaded** 18A power supply
- **LTS** available for automatic line switching

## REDUCED COST

- **Significantly lower cost** compared to larger AC generators
- **More runtime** than non-Alpha 2000W AC generators
- **Saves fuel** with economy switch when lightly loaded
- Lightweight design for **single-man deployment**

### AlphaGen ACX2000i Feature Highlights:

- ➊ Large 1.4 gal fuel tank for longer runtimes
- ➋ Lightweight portable design for easy deployment
- ➌ LED indicators for alarms and running
- ➍ NEMA 5-20R output receptacle
- ➎ 8A 12VDC battery charger
- ➏ Quiet operation, 56—66dBA at 7m (22ft)
